

Title: The Candidate List of SVHCs Add 4 Substance, Update to 201

Date: 16 July 2019

Abstract: 16 July 2019, ECHA added 4 new substances to the Candidate List of substances of very high concern (SVHCs). The authorization now contains 201 substances. The new substances to the Candidate List possess the carcinogenic, toxic to reproduction, persistent, bioaccumulative and toxic (PBT) and very persistent and very bioaccumulative (vPvB) properties.

On 16 July 2019, ECHA adds four new substances of very high concern (SVHC) to the Candidate List. Up to now, the SVHC list is updated to 201 items.

Following are the new SVHC substance and updated entries on 16 July 2019:

#	Substance name	EC number	CAS number	Reason for inclusion	Examples of use(s)
1	2-methoxyethyl acetate	203-772-9	110-49-6	Toxic for reproduction (Article 57 (c))	Not registered under REACH.
2	Tris(4-nonylphenyl, branched and linear) phosphite (TNPP) with \geq 0.1% w/w of 4-nonylphenol, branched and linear (4-NP)	-	-	Endocrine disrupting properties (Article 57(f) – environment)	Primarily used as an antioxidant to stabilise polymers.
3	2,3,3,3-tetrafluoro-2-(hept fluoropropoxy)propionic acid, its salts and its acyl halides (covering any of their individual isomers and combinations thereof)	-	-	Equivalent level of concern having probable serious effects to the environment (Article 57(f) - environment)	Processing aid in the production of fluorinated polymers.

				Equivalent level of concern having probable serious effects to human health (Article 57(f) – human health)	
4	4-tert-butylphenol	202-679-0	98-54-4	Endocrine disrupting properties (Article 57(f) – environment)	Used in coating products, polymers, adhesives, sealants and for the synthesis of other substances.

Click [here](#) to download the latest SVHC List (updated on 16 July 2019)

The product containing SVHC materials, whose content exceeds 0.1%, needs to inform ECHA. In later 6 months, the product that contains more than 0.1% the concentration of a single SVHC in the article and the annual export volume is more than 1 ton, shall notify the ECHA. The list of SVHC updates twice a year. C&K Testing reminds enterprises to note the updating of the SVHC List to meet responsibilities and obligations.

Staffed by experienced specialists, C&K Testing can assure you of the quality and safety of your products by our professional testing services. Our test reports have international creditability across different markets. Please feel free to contact test@cirs-group.com or [leave us a message](#) if any question.
