

REACH Annex XVII (Updated as on January 14, 2016)

Name of the substance	Conditions of restriction
	Shall not be placed on the market, or used:
1. Polychlorinated terphenyls (PCTs)	as substances,
	in mixtures, including waste oils, or in equipment, in concentrations greater than 50 mg/kg (0,005 % by
	weight).
2. Chloroethylene (Vinyl chloride)	Shall not be used as aerosol propellant for any use.
CAS No 75-01-4	Aerosols dispensers containing the substance as propellant shall not be placed on the market.
EC No 200-831-0	Aerosols dispensels containing the substance as propenant shall not be placed on the market.
3. Liquid substances or mixtures, which are regarded	1. Shall not be used in:
as dangerous	ornamental articles intended to produce light or colour effects by means of different phases, for example
in accordance with Directive 1999/45/EC or are	in ornamental lamps and ashtrays,
fulfilling the criteria for any of the following hazard	tricks and jokes,
classes or categories set out in Annex I to	games for one or more participants, or any article intended to be used as such, even with ornamental
Regulation (EC) No 1272/2008:	aspects,
(a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types	2. Articles not complying with paragraph 1 shall not be placed on the market.
A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2,	
2.14 categories 1 and 2, 2.15 types A to F;	3. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or
	perfume, or both, if they:
(b) hazard classes 3.1 to 3.6, 3.7 adverse effects on	can be used as fuel in decorative oil lamps for supply to the general public, and,
sexual function and fertility or on development,	present an aspiration hazard and are labelled with R65 or H304, •
3.8 effects other than narcotic effects, 3.9 and	
3.10;	4. Decorative oil lamps for supply to the general public shall not be placed on the market unless they
	conform to the European Standard on Decorative oil lamps (EN 14059) adopted by the European Committee
(c) hazard class 4.1;	for Standardisation (CEN).

(d) hazard class 5.1.	
	5. Without prejudice to the implementation of other Community provisions relating to the classification,
	packaging and labelling of dangerous substances and mixtures, suppliers shall ensure, before the placing on
	the market, that the following requirements are met:
	(a) lamp oils, labelled with R65 or H304, intended for supply to the general public are visibly, legibly and
	indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of children"; and, by 1
	December 2010, "Just a sip of lamp oil — or even sucking the wick of lamps — may lead to life-threatening lung damage";
	(b) grill lighter fluids, labelled with R65 or H304, intended for supply to the general public are legibly and
	indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life threatening lung damage";
	(c) lamp oils and grill lighters, labelled with R65 or H304, intended for supply to the general public are
	packaged in black opaque containers not exceeding 1 litre by 1 December 2010.
	6. No later than 1 June 2014, the Commission shall request the European Chemicals Agency to prepare a
	dossier, in accordance with Article 69 of the present Regulation with a view to ban, if appropriate, grill
	lighter fluids and fuel for decorative lamps, labelled R65 or H304, intended for supply to the general public.
	7. Natural or legal persons placing on the market for the first time lamp oils and grill lighter fluids, labelled
	with R65 or H304, shall by 1 December 2011, and annually thereafter, provide data on alternatives to lamp
	oils and grill lighter fluids labelled R65 or H304 to the competent authority in the Member State concerned.
	Member States shall make those data available to the Commission.
4. Tris (2,3 dibromopropyl) phosphate	1. Shall not be used in textile articles, such as garments, undergarments and linen, intended to come into
	contact with the skin.
CAS No 126-72-7	2. Articles not complying with paragraph 1 shall not be placed on the market.

		1. Shall not be used in toys or parts of toys where the concentration of benzene in the free state is greater than 5 mg/kg (0,0005 %) of the weight of the toy or part of toy.
		2. Toys and parts of toys not complying with paragraph 1 shall not be placed on the market.
		3. Shall not be placed on the market, or used,
5.	Benzene	— as a substance,
	CAS No 71-43-2 EC No 200-753-7	 — as a constituent of other substances, or in mixtures, in concentrations equal to, or greater than 0,1 % by weight.
		4. However, paragraph 3 shall not apply to:
		(a) motor fuels which are covered by Directive 98/70/EC;
		(b) substances and mixtures for use in industrial processes not allowing for the emission of benzene in
		quantities in excess of those laid down in existing legislation
		(c) natural gas placed on the market for use by consumers, provided that the concentration of benzene
		remains below 0,1 % volume/volume
6.	Asbestos fibres	
(a)	Crocidolite	The manufacture, placing on the market and use of these fibres and of articles and mixtures containing these
	CAS No 12001-28-4	fibres added intentionally is prohibited.
(b)	Amosite	
	CAS No 12172-73-5	However, Member States may exempt the placing on the market and use of diaphragms containing
(c)	Anthophyllite	chrysotile (point (f)) for existing electrolysis installations until they reach the end of their service life, or until
	CAS No 77536-67-5	suitable asbestos-free substitutes become available, whichever is the sooner.
(d)	Actinolite	
	CAS No 77536-66-4	By 1 June 2011 Member States making use of this exemption shall provide a report to the Commission on
(e)	Tremolite	the availability of asbestos free substitutes for electrolysis installations and the efforts undertaken to

CAS No 77536-68-6	develop such alternatives, on the protection of the health of workers in the installations, on the source and
(f) Chrysotile	quantities of chrysotile, on the source and quantities of diaphragms containing chrysotile, and the envisaged
CAS No 12001-29-5	date of the end of the exemption. The Commission shall make this information publicly available.
CAS No 132207-32-0	
	Following receipt of those reports, the Commission shall request the Agency to prepare a dossier in
	accordance with Article 69 with a view to prohibit the placing on the market and use of diaphragms
	containing chrysotile.
	The use of articles containing asbestos fibres referred to in paragraph 1 which were already installed and/or
	in service before 1 January 2005 shall continue to be permitted until they are disposed of or reach the end of
	their service life. However, Member States may, for reasons of protection of human health, restrict, prohibit
	or make subject to specific conditions, the use of such articles before they are disposed of or reach the end
	of their service life.
	Member States may allow placing on the market of articles in their entirety containing asbestos fibres
	referred to in paragraph 1 which were already installed and/or in service before 1 January 2005, under
	specific conditions ensuring a high level of protection of human health. Member States shall communicate
	these national measures to the Commission by 1 June 2011. The Commission shall make this information
	publicly available.
	Without prejudice to the application of other Community provisions on the classification, packaging and
	labelling of substances and mixtures, the placing on the market and use of articles containing these fibres, as
	permitted according to the preceding derogations, shall be permitted only if suppliers ensure before the
	placing on the market that articles bear a label in accordance with Appendix 7 to this Annex.
7. Tris(aziridinyl)phosphinoxide	1. Shall not be used in textile articles, such as garments, undergarments and linen, intended to come into
CAS No 545-55-1	contact with the skin.

	EC No 208-892-5	2. Articles not complying with paragraph 1 shall not be placed on the market.
8.	Polybromobiphenyls; Polybrominatedbiphenyls	1. Shall not be used in textile articles, such as garments, undergarments and linen, intended to come into
	(PBB)	contact with the skin.
CAS	5 No 59536-65-1	2. Articles not complying with paragraph 1 shall not be placed on the market.
9.	(a)Soap bark powder	
	(Quillaja saponaria) and its derivatives containing	
	saponines	
	CAS No 68990-67-0	
	EC 273-620-4	
	(b) Powder of the roots of Helleborus viridis and	Chall not be used in joles and because on in which we are which sintended to be used as such faminetees as a
	Helleborus niger	Shall not be used, in jokes and hoaxes or in mixtures or articles intended to be used as such, for instance as a constituent of sneezing powder and stink bombs.
		constituent of sheezing powder and stink bombs.
	(c) Powder of the roots of Veratrum album and	Jokes and hoaxes, or mixtures or articles intended to be used as such, not complying with paragraph 1 shall
	Veratrum nigrum	not be placed on the market.
	(d) Benzidine and/or its derivatives	However, paragraphs 1 and 2 shall not apply to stink bombs containing not more than 1,5 ml of liquid.
	CAS No 92-87-5 EC No 202-199-1	nowever, paragraphs 1 and 2 shall not apply to still bombs containing not more than 1,5 mi of ilquid.
	(e) o-Nitrobenzaldehyde	
	CAS No 552-89-6 EC No 209-025-3	
	(f) Wood powder	

10.	
(a) Ammonium sulphide	1. Shall not be used, in jokes and hoaxes or in mixtures or articles intended to be used as such, for instance
CAS No 12135-76-1 EC No 235-223-4	as a constituent of sneezing powder and stink bombs.
(b) Ammonium hydrogen sulphide	
CAS No 12124-99-1 EC No 235-184-3	2. Jokes and hoaxes, or mixtures or articles intended to be used as such, not complying with paragraph 1
(c) Ammonium polysulphide	shall not be placed on the market.
CAS No 9080-17-5 EC No 232-989-1	
	3. However, paragraphs 1 and 2 shall not apply to stink bombs containing not more than 1,5 ml of liquid.
11. Volatile esters of bromoacetic acids:	
(a) Methyl bromoacetate	1. Shall not be used, in jokes and hoaxes or in mixtures or articles intended to be used as such, for instance
CAS No 96-32-2 EC No 202-499-2	as a constituent of sneezing powder and stink bombs.
(b) Ethyl bromoacetate	
CAS No 105-36-2 EC No 203-290-9	2. Jokes and hoaxes, or mixtures or articles intended to be used as such, not complying with paragraph 1
(c) Propyl bromoacetate	shall not be placed on the market.
CAS No 35223-80-4	
(d) Butyl bromoacetate	3. However, paragraphs 1 and 2 shall not apply to stink bombs containing not more than 1,5 ml of liquid.
CAS No 18991-98-5 EC No 242-729-9	

12. 2-Naphthylamine CAS No 91-59-8 EC No 202-080-4 and its salts 13. Benzidine CAS No 92-87-5 EC No 202-199-1 and its salts 14. 4-Nitrobiphenyl CAS No 92-93-3 Einecs EC No 202-204-7 15. 4-Aminobiphenyl xenylamine CAS No 92-67-1 Einecs EC No 202-177-1 and its salts	The following shall apply to entries 12 to 15: Shall not be placed on the market, or used, as substances or in mixtures in concentrations greater than 0,1 % by weight.
 16. Lead carbonates: (a) Neutral anhydrous carbonate (PbCO 3) CAS No 598-63-0 EC No 209-943-4 (b) Trilead-bis(carbonate)-dihydroxide 2Pb CO 3 	Shall not be placed on the market, or used, as substances or in mixtures, where the substance or mixture is intended for use as paint. However, Member States may, in accordance with the provisions of International Labour Organization (ILO) Convention 13, permit the use on their territory of the substance or mixture for the restoration and
-Pb(OH) 2 CAS No 1319-46-6 EC No 215-290-6	maintenance of works of art and historic buildings and their interiors, as well as the placing on the market for such use. Where a Member State makes use of this derogation, it shall inform the Commission thereof.
 17. Lead sulphates: (a) PbSO 4 CAS No 7446-14-2 EC No 231-198-9 (b) Pb x SO 4 	 Shall not be placed on the market, or used, as substances or in mixtures, where the substance or mixture is intended for use as paint. However, Member States may, in accordance with the provisions of International Labour Organization (ILO) Convention 13, permit the use on their territory of the substance or mixture for the restoration and

C&K Testing

HOTLINE :4006-721-723 Email: test@cirs-group.com

CAS No 15739-80-7 EC No 239-831-0	maintenance of works of art and historic buildings and their interiors, as well as the placing on the market
	for such use. Where a Member State makes use of this derogation, it shall inform the Commission thereof.
	Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is
	intended for use:
	(a)to prevent the fouling by micro-organisms, plants or animals of:
	— the hulls of boats,
18. Mercury compounds	 cages, floats, nets and any other appliances or equipment used for fish or shellfish farming,
	 — any totally or partly submerged appliances or equipment;
	(b) in the preservation of wood;
	(c) in the impregnation of heavy-duty industrial textiles and yarn intended for their manufacture;
	(d) in the treatment of industrial waters, irrespective of their use.
	1. Shall not be placed on the market:
	(a) in fever thermometers;
	(b) in other measuring devices intended for sale to the general public (such as manometers, barometers,
	sphygmomanometers, thermometers other than fever thermometers).
	2. The restriction in paragraph 1 shall not apply to measuring devices that were in use in the Community
18a. Mercury	before 3 April 2009. However Member States may restrict or prohibit the placing on the market of such
CAS No 7439-97-6	measuring devices.
EC No 231-106-7	
	3. The restriction in paragraph 1(b) shall not apply to:
	(a) measuring devices more than 50 years old on 3 October 2007;
	(b) barometers (except barometers within point
	(a)) until 3 October 2009.
	5. The following mercury-containing measuring devices intended for industrial and professional uses shall
	not be placed on the market after 10 April 2014:

(a) barometers;
(b) hygrometers;
(c) manometers;
(d) sphygmomanometers;
(e) strain gauges to be used with plethysmographs;
(f) tensiometers;
(g) thermometers and other non-electrical thermometric applications.
The restriction shall also apply to measuring devices under points (a) to (g) which are placed on the market empty if intended to be filled with mercury.
6. The restriction in paragraph 5 shall not apply to:
(a) sphygmomanometers to be used:
(i) in epidemiological studies which are ongoing on 10 October 2012;
(ii) as reference standards in clinical validation studies of mercury-free sphygmomanometers;
(b) thermometers exclusively intended to perform tests according to standards that require the use of
mercury thermometers until 10 October 2017;
(c) mercury triple point cells which are used for the calibration of platinum resistance thermometers.
7. The following mercury-using measuring devices intended for professional and industrial uses shall not be
placed on the market after 10 April 2014:
(a) mercury pycnometers;
(b) mercury metering devices for determination of the softening point.
8. The restrictions in paragraphs 5 and 7 shall not apply to:
(a) measuring devices more than 50 years old on 3 October 2007;

	(b) measuring devices which are to be displayed in public exhibitions for cultural and historical purposes.'
	 1.Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is intended for use to prevent the fouling by micro-organisms, plants or animals of: — the hulls of boats, — cages, floats, nets and any other appliances or equipment used for fish or shellfish farming, — any totally or partly submerged appliances or equipment.
19. Arsenic compounds	 2. Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is intended for use in the treatment of industrial waters, irrespective of their use. 3. Shall not be used in the preservation of wood. Furthermore, wood so treated shall not be placed on the market.
	 4. By way of derogation from paragraph 3: (a) Relating to the substances and mixtures for the preservation of wood: these may only be used in industrial installations using vacuum or pressure to impregnate wood if they are solutions of inorganic compounds of the copper, chromium, arsenic (CCA) type C and if they are authorised in accordance with Article 5(1) of Directive 98/8/EC. Wood so treated shall not be placed on the market before fixation of the preservative is completed. (b) Wood treated with CCA solution in accordance with point (a) may be placed on the market for
	professional and industrial use provided that the structural integrity of the wood is required for human or livestock safety and skin contact by the general public during its service life is unlikely:

- as structural timber in public and agricultural buildings, office buildings, and industrial premises,
— in bridges and bridgework,
— as constructional timber in freshwater areas and brackish waters, for example jetties and bridges,
— as noise barriers,
— in avalanche control,
 — in highway safety fencing and barriers,
 — as debarked round conifer livestock fence posts,
— in earth retaining structures,
— as electric power transmission and telecommunications poles,
— as underground railway sleepers.
(c) Without prejudice to the application of other Community provisions on the classification, packaging and
labelling of substances and mixtures, suppliers shall ensure before the placing on the market that all treated
wood placed on the market is individually labelled 'For professional and industrial installation and use only,
contains arsenic'. In addition, all wood placed on the market in packs shall also bear a label stating 'Wear
gloves when handling this wood. Wear a dust mask and eye protection when cutting or otherwise crafting
this wood. Waste from this wood shall be treated as hazardous by an authorised undertaking'.
(d) Treated wood referred to under point (a) shall not be used:
— in residential or domestic constructions, whatever the purpose,
— in any application where there is a risk of repeated skin contact,
— in marine waters,
- for agricultural purposes other than for livestock fence posts and structural uses in accordance with point
(b),
 in any application where the treated wood may come into contact with intermediate or finished
products intended for human and/or animal consumption.
5. Wood treated with arsenic compounds that was in use in the Community before 30 September 2007, or
that was placed on the market in accordance with paragraph 4 may remain in place and continue to be used

	until it reaches the end of its service life.
	6. Wood treated with CCA type C that was in use in the Community before 30 September 2007, or that was
	placed on the market in accordance with paragraph 4:
	- may be used or reused subject to the conditions pertaining to its use listed under points 4(b), (c) and (d),
	- may be placed on the market subject to the conditions pertaining to its use listed under points 4(b), (c)
	and (d).
	7. Member States may allow wood treated with other types of CCA solutions that was in use in the
	Community before 30 September 2007:
	- to be used or reused subject to the conditions pertaining to its use listed under points 4 (b), (c) and (d),
	— to be placed on the market subject to the conditions pertaining to its use listed under points 4(b), (c) and
	(d).
	1. Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is
	acting as biocide in free association paint.
	2. Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture
	acts as biocide to prevent the fouling by micro-organisms, plants or animals of:
	(a) all craft irrespective of their length intended for use in marine, coastal, estuarine and inland waterways
	and lakes;
20. Organostannic compounds	(b) cages, floats, nets and any other appliances or equipment used for fish or shellfish farming;
	(c) any totally or partly submerged appliance or equipment.
	3. Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is
	intended for use in the treatment of industrial waters.
	►M6 4. Tri-substituted organostannic compounds:
	(a) Tri-substituted organostannic compounds such as tributyltin (TBT) compounds and triphenyltin (TPT)

compounds shall not be used after 1 July 2010 in articles where the concentration in the article, or part
thereof, is greater than the equivalent of 0,1 % by weight of tin.
(b) Articles not complying with point (a) shall not be placed on the market after 1 July 2010, except for
articles that were already in use in the Community before that date.
5. Dibutyltin (DBT) compounds:
(a) Dibutyltin (DBT) compounds shall not be used after 1 January 2012 in mixtures and articles for supply to
the general public where the concentration in the mixture or the article, or part thereof, is greater than the
equivalent of 0,1 % by weight of tin.
(b) Articles and mixtures not complying with point (a) shall not be placed on the market after 1 January
2012, except for articles that were already in use in the Community before that date.
(c) By way of derogation, points (a) and (b) shall not apply until 1 January 2015 to the following articles and
mixtures for supply to the general public:
- one-component and two-component room temperature vulcanisation sealants (RTV-1 and RTV-2
sealants) and adhesives,
 paints and coatings containing DBT compounds as catalysts when applied on articles,
- soft polyvinyl chloride (PVC) profiles whether by themselves or coextruded with hard PVC,
- fabrics coated with PVC containing DBT compounds as stabilisers when intended for outdoor applications,
- outdoor rainwater pipes, gutters and fittings, as well as covering material for roofing and façades,
(d) By way of derogation, points (a) and (b) shall not apply to materials and articles regulated under
Regulation (EC) No 1935/2004.
6. Dioctyltin (DOT) compound:
(a) Dioctyltin (DOT) compounds shall not be used after 1 January 2012 in the following articles for supply to,
or use by, the general public, where the concentration in the article, or part thereof, is greater than the
equivalent of 0,1 % by weight of tin:

	 textile articles intended to come into contact with the skin,
	— gloves,
	 footwear or part of footwear intended to come into contact with the skin,
	— wall and floor coverings,
	- childcare articles,
	— female hygiene products,
	— nappies,
	 two-component room temperature vulcanisation moulding kits (RTV-2 moulding kits).
	(b) Articles not complying with point (a) shall not be placed on the market after 1 January 2012, except for
	articles that were already in use in the Community before that date. ◄
21.Di-µ-oxo-di-n-butylstanniohydroxyborane/ Dibutyltin	Shall not be placed on the market, or used, as a substance, or in mixtures in a concentration equal to, or
hydrogen borate C 8 H 19 BO 3 Sn (DBB)	greater than 0,1 % by weight.
CAS No 75113-37-0	However, the first paragraph shall not apply to this substance (DBB) or mixtures containing it if these are
EC No 401-040-5	intended solely for conversion into articles, among which this substance will no longer feature in a
	concentration equal to or greater than 0,1 %.
22.Pentachlorophenol	Shall not be placed on the market, or used,
CAS No 87-86-5	— as a substance,
EC No 201-778-6 and its salts and esters	— as a constituent in other substances, or in mixtures, in a concentration equal to or greater than 0,1 % by
	weight.
	For the purpose of this entry, the codes and chapters indicated in square brackets are the codes and
	chapters of the tariff and statistical nomenclature of Common Customs Tariff as established by Council
23.Cadmium	Regulation (EEC) No 2658/87 (*).
CAS No 7440-43-9	►M13 ► M17 1. Shall not be used in mixtures and articles produced from the following synthetic organic
EC No 231-152-8 and its compounds	polymers (hereafter referred to as plastic material):
	— polymers or copolymers of vinyl chloride (PVC) [3904 10] [3904 21]

— polyurethane (PUR) [3909 50]
- low-density polyethylene (LDPE), with the exception of low-density polyethylene used for the production
of coloured masterbatch [3901 10]
— cellulose acetate (CA) [3912 11]
— cellulose acetate butyrate (CAB) [3912 11]
— epoxy resins [3907 30]
— melamine-formaldehyde (MF) resins [3909 20]
— urea-formaldehyde (UF) resins [3909 10]
— unsaturated polyesters (UP) [3907 91]
— polyethylene terephthalate (PET) [3907 60]
— polybutylene terephthalate (PBT)
 transparent/general-purpose polystyrene [3903 11]
— acrylonitrile methylmethacrylate (AMMA)
— cross-linked polyethylene (VPE)
— high-impact polystyrene
— polypropylene (PP) [3902 10]
Mixtures and articles produced from plastic material as listed above shall not be placed on the market if the
concentration of cadmium (expressed as Cd metal) is equal to or greater than 0,01 % by weight of the plastic
material. 🚽
►C5 By way of derogation, the second subparagraph shall not apply to articles placed on the market before
10 December 2011. –
The first and second subparagraphs apply without prejudice to Council Directive 94/62/ EC (**) and acts
adopted on its basis.
►M17 By 19 November 2012, in accordance with Article 69, the Commission shall ask the European
Chemicals Agency to prepare a dossier conforming to the requirements of Annex XV in order to assess
whether the use of cadmium and its compounds in plastic material, other than that listed in subparagraph 1,

should be restricted.
2. Shall not be used in paints [3208] [3209].
For paints with a zinc content exceeding 10 % by weight of the paint, the concentration of cadmium
(expressed as Cd metal) shall not be equal to or greater than 0,1 % by weight.
Painted articles shall not be placed on the market if the concentration of cadmium (expressed as Cd metal) is
equal to or greater than 0,1 % by weight of the paint on the painted article.
3. By way of derogation, paragraphs 1 and 2 shall not apply to articles coloured with mixtures containing
cadmium for safety reasons.
By way of derogation, paragraph 1, second subparagraph shall not apply to:
 mixtures produced from PVC waste, hereinafter referred to as 'recovered PVC',
- mixtures and articles containing recovered PVC if their concentration of cadmium (expressed as Cd metal)
does not exceed 0,1 % by weight of the plastic material in the following rigid PVC applications:
(a) profiles and rigid sheets for building applications;
(b) doors, windows, shutters, walls, blinds, fences, and roof gutters;
(c) decks and terraces;
(d) cable ducts;
(e) pipes for non-drinking water if the recovered PVC is used in the middle layer of a multilayer pipe and is
entirely covered with a layer of newly produced PVC in compliance with paragraph 1 above.
Suppliers shall ensure, before the placing on the market of mixtures and articles containing recovered PVC
for the first time, that these are visibly, legibly and indelibly marked as follows: 'Contains recovered PVC' or
with the following pictogram:
51 5

PVC
In accordance with Article 69 of this Regulation, the derogation granted in paragraph 4 will be reviewed, in particular with a view to reducing the limit value for cadmium and to reassess the derogation for the
applications listed in points (a) to (e), by 31 December 2017. ◄
For the purpose of this entry, 'cadmium plating' means any deposit or coating of metallic cadmium on a
metallic surface.
Shall not be used for cadmium plating metallic articles or components of the articles used in the following
sectors/applications:
(a) equipment and machinery for:
— food production [8210] [8417 20] [8419 81] [8421 11] [8421 22] [8422] [8435] [8437] [8438] [8476 11]
— agriculture [8419 31] [8424 81] [8432] [8433] [8434] [8436]
— cooling and freezing [8418]
 printing and book-binding [8440] [8442] [8443]
(b) equipment and machinery for the production of:
— household goods [7321] [8421 12] [8450] [8509] [8516]
— furniture [8465] [8466] [9401] [9402] [9403] [9404]
— sanitary ware [7324]
— central heating and air conditioning plant [7322] [8403] [8404] [8415]
In any case, whatever their use or intended final purpose, the placing on the market of cadmium-plated
articles or components of such articles used in the sectors/applications listed in points (a) and (b) above and

of articles manufactured in the sectors listed in point (b) above is prohibited.
6. The provisions referred to in paragraph 5 shall also be applicable to cadmium-plated articles or
components of such articles when used in the sectors/applications listed in points (a) and (b) below and to
articles manufactured in the sectors listed in (b) below:
(a) equipment and machinery for the production of:
— paper and board [8419 32] [8439] [8441] textiles and clothing [8444] [8445] [8447] [8448] [8449] [8451]
[8452]
(b) equipment and machinery for the production of:
— industrial handling equipment and machinery [8425] [8426] [8427] [8428] [8429] [8430] [8431]
— road and agricultural vehicles [chapter 87]
– rolling stock [chapter 86]
– vessels [chapter 89]
7. However, the restrictions in paragraphs 5 and 6 shall not apply to:
- articles and components of the articles used in the aeronautical, aerospace, mining, offshore and nuclear
sectors whose applications require high safety standards and in safety devices in road and agricultural
vehicles, rolling stock and vessels,
- electrical contacts in any sector of use, where that is necessary to ensure the reliability required of the
apparatus on which they are installed.
►M13 8. Shall not be used in brazing fillers in concentration equal to or greater than 0,01 % by weight.
Brazing fillers shall not be placed on the market if the concentration of cadmium (expressed as Cd metal) is
equal to or greater than 0,01 % by weight.
For the purpose of this paragraph brazing shall mean a joining technique using alloys and under- taken at

	temperatures above 450 °C.
	9. By way of derogation, paragraph 8 shall not apply to brazing fillers used in defence and aerospace applications and to brazing fillers used for safety reasons.
	10. Shall not be used or placed on the market if the concentration is equal to or greater than 0,01 % by
	weight of the metal in: (i) metal beads and other metal components for jewellery making;
	 (ii) metal parts of jewellery and imitation jewellery articles and hair accessories, including: — bracelets, necklaces and rings,
	 – Dracelets, necklaces and migs, – piercing jewellery,
	— wrist-watches and wrist-wear,
	— brooches and cufflinks.
	 C5 11. By way of derogation, paragraph 10 shall not apply to articles placed on the market before 10
	December 2011 and jewellery more than 50 years old on 10 December 2011. \triangleleft
	1. Shall not be placed on the market, or used, as a substance or in mixtures.
	Articles containing the substance shall not be placed on the market.
24.Monomethyl — tetrachlorodiphenyl methane Trade name: Ugilec 141	2. By way of derogation, paragraph 1 shall not apply:
CAS No 76253-60-6	(a) in the case of plant and machinery already in service on 18 June 1994, until such plant and machinery is disposed of;
	(b) in the case of the maintenance of plant and machinery already in service within a Member State on 18 June 1994.

	For the purposes of point (a) Member States may, on grounds of human health protection and
	environmental protection, prohibit within their territory the use of such plant or machinery before it is
	disposed of.
25.Monomethyl-dichloro-diphenyl methane Trade	Shall not be placed on the market, or used, as a substance or in mixtures.
name: Ugilec 121	
Ugilec 21	Articles containing the substance shall not be placed on the market.
26.Monomethyl-dibromo-diphenyl methane	Shall not be placed on the market, or used, as a substance or in mixtures.
bromobenzylbromotoluene, mixture of isomers	
Trade name: DBBT	Articles containing the substance shall not be placed on the market.
CAS No 99688-47-8	
	1. Shall not be used:
27.Nickel	(a) in any post assemblies which are inserted into pierced ears and other pierced parts of the human body
CAS No 7440-02-0	unless the rate of nickel release from such post assemblies is less than 0,2 μ g/ cm 2 /week (migration limit);
EC No 231-111-4 and its compounds	
	(b) in articles intended to come into direct and prolonged contact with the skin such as:
	— earrings,
	 necklaces, bracelets and chains, anklets, finger rings,
	 wrist-watch cases, watch straps and tighteners,
	- rivet buttons, tighteners, rivets, zippers and metal marks, when these are used in garments,
	if the rate of nickel release from the parts of these articles coming into direct and prolonged contact with the
	skin is greater than 0,5 μg/cm 2 /week.
	(c) in articles referred to in point (b) where these have a non-nickel coating unless such coating is sufficient
	to ensure that the rate of nickel release from those parts of such articles coming into direct and prolonged

contact with the skin will not exceed 0,5 $\mu g/cm$ 2 / week for a period of at least two years of normal use of the article.
2. Articles which are the subject of paragraph 1 shall not be placed on the market unless they conform to the requirements set out in that paragraph.
3. The standards adopted by the European Committee for Standardisation (CEN) shall be used as the test methods for demonstrating the conformity of articles to paragraphs 1 and 2.

28.Substances which appear in Part 3 of Annex VI to	Without prejudice to the other parts of this Annex the following shall apply to entries 28 to 30:
Regulation (EC) No 1272/2008 classified as carcinogen	
category 1A or 1B (Table 3.1) or carcinogen category 1	1. Shall not be placed on the market, or used,
or 2 (Table 3.2) and listed as follows:	— as substances,
- Carcinogen category 1A (Table 3.1)/ carcinogen	— as constituents of other substances, or,
category 1 (Table 3.2) listed in Appendix 1	— in mixtures,
— Carcinogen category 1B (Table 3.1)/ carcinogen	for supply to the general public when the individual concentration in the substance or mixture is equal to or
category 2 (Table 3.2) listed in Appendix 2	greater than:
29.Substances which appear in Part 3 of Annex VI to	- either the relevant specific concentration limit specified in Part 3 of Annex VI to Regulation (EC) No
Regulation (EC) No 1272/2008 classified as germ cell	1272/2008, or,
mutagen category 1A or 1B (Table 3.1) or mutagen	►M19 — the relevant concentration specified in Directive 1999/45/EC where no specific concentration limit
category 1 or 2 (Table 3.2) and listed as follows:	is set out in Part 3 of Annex VI to Regulation (EC) No 1272/2008. ◄
— Mutagen category 1A (Table 3.1)/ mutagen category	Without prejudice to the implementation of other Community provisions relating to the classification,
1 (Table 3.2) listed in Appendix 3	packaging and labelling of substances and mixtures, suppliers shall ensure before the placing on the market
— Mutagen category 1B (Table 3.1)/ mutagen category	that the packaging of such substances and mixtures is marked visibly, legibly and indelibly as follows:
2 (Table 3.2) listed in Appendix 4	'Restricted to professional users'.
30.Substances which appear in Part 3 of Annex VI to	2. By way of derogation, paragraph 1 shall not apply to:
Regulation (EC) No 1272/2008 classified as toxic to	(a) medicinal or veterinary products as defined by Directive 2001/82/EC and Directive 2001/83/ EC;
reproduction category 1A or 1B (Table 3.1) or toxic to	(b) cosmetic products as defined by Directive 76/ 768/EEC;
reproduction category 1 or 2 (Table 3.2) and listed as	(c) the following fuels and oil products: — motor fuels which are covered by Directive 98/70/EC, — mineral
follows:	oil products intended for use as fuel in mobile or fixed combustion plants, — fuels sold in closed systems
- Reproductive toxicant category 1A adverse effects on	(e.g. liquid gas bottles);
sexual function and fertility or on development (Table	(d) artists' paints covered by Directive 1999/45/ EC;
3.1) or reproductive toxicant category 1 with R60 (May	(e) the substances listed in Appendix 11, column 1, for the applications or uses listed in Appendix 11, column
impair fertility) or R61 (May cause harm to the unborn	2. Where a date is specified in column 2 of Appendix 11, the derogation shall apply until the said date.
child) (Table 3.2) listed in Appendix 5	

- Reproductive toxicant category 1B adverse effects on sexual function and fertility or on development (Table 3.1) or reproductive toxicant category 2 with R60 (May impair fertility) or R61 (May cause harm to the unborn child) (Table 3.2) listed in Appendix 6

31.	1. Shall not be placed on the market, or used, as substances or in mixtures where the substance or mixture is
(a) Creosote; wash oil	intended for the treatment of wood. Furthermore, wood so treated shall not be placed on the market.
CAS No 8001-58-9	
EC No 232-287-5	2. By way of derogation from paragraph 1:
	(a) The substances and mixtures may be used for wood treatment in industrial installations or by
(b) Creosote oil; wash oil	professionals covered by Community legislation on the protection of workers for in situ retreatment only if
CAS No 61789-28-4	they contain:
EC No 263-047-8	(i) benzo[a]pyrene at a concentration of less than 50 mg/kg (0,005 % by weight), and
	(ii) water extractable phenols at a concentration of less than 3 % by weight.
(c) Distillates (coal tar), naphthalene oils; naphthalene	
oil	Such substances and mixtures for use in wood treatment in industrial installations or by professionals:
CAS No 84650-04-4	— may be placed on the market only in packaging of a capacity equal to or greater than 20 litres,
EC No 283-484-8	— shall not be sold to consumers.
(d) Creosote oil, acenaphthene fraction; wash oil	Without prejudice to the application of other Community provisions on the classification, packaging and
CAS No 90640-84-9	labelling of substances and mixtures, suppliers shall ensure before the placing on the market that the
EC No 283-484-8EC No 292-605-3	packaging of such substances and mixtures is visibly, legibly and indelibly marked as follows:
	'For use in industrial installations or professional treatment only'.
(e) Distillates (coal tar), upper; heavy anthracene oil	
CAS No 65996-91-0	(b) Wood treated in industrial installations or by professionals according to subparagraph (a) which is placed
EC No 266-026-1	on the market for the first time or retreated in situ may be used for professional and industrial use only, for
	example on railways, in electric power transmission and telecommunications, for fencing, for agricultural
(f) Anthracene oil	purposes (for example stakes for tree support) and in harbours and waterways.
CAS No 90640-80-5	
EC No 292-602-7	(c) The prohibition in paragraph 1 on the placing on the market shall not apply to wood which has been
	treated with substances listed in entry 31 (a) to (i) before 31 December 2002 and is placed on the

(g) Tar acids, coal, crude; crude phenols	second-hand market for re-use.
CAS No 65996-85-2	
EC No 266-019-3	3. Treated wood referred to under paragraph 2(b) and (c) shall not be used:
	 inside buildings, whatever their purpose,
(h) Creosote, wood	— in toys,
CAS No 8021-39-4	— in playgrounds,
EC No 232-419-1	- in parks, gardens, and outdoor recreational and leisure facilities where there is a risk of frequent skin
	contact,
(i) Low temperature tar oil, alkaline; extract residues	 in the manufacture of garden furniture such as picnic tables,
(coal), low temperature coal tar alkaline	 for the manufacture and use and any re-treatment of:
CAS No 122384-78-5	 — containers intended for growing purposes,
EC No 310-191-5	- packaging that may come into contact with raw materials, intermediate or finished products destined for
	human and/or animal consumption,
	 other materials which may contaminate the articles mentioned above.

32.	
Chloroform	Without prejudice to the other parts of this Annex, the following shall apply to entries 32 to 38.
CAS No 67-66-3	
EC No 200-663-8	1. Shall not be placed on the market, or used,
34.	— as substances,
1,1,2-Trichloroethane	- as constituents of other substances, or in mixtures in concentrations equal to or greater than 0,1 % by
CAS No 79-00-5	weight,
EC No 201-166-9	
35.	where the substance or mixture is intended for supply to the general public and/or is intended for diffusive
1,1,2,2-Tetrachloroethane	applications such as in surface cleaning and cleaning of fabrics.
CAS No 79-34-5	
EC No 201-197-8	2. Without prejudice to the application of other Community provisions on the classification, packaging and
36.	labelling of substances and mixtures, suppliers shall ensure before the placing on the market that the
1,1,1,2-Tetrachloroethane	packaging of such substances and mixtures containing them in concentrations equal to or greater than 0,1 %
CAS No 630-20-6	by weight is visibly, legibly and indelibly marked as follows:
37.	
Pentachloroethane	'For use in industrial installations only'.
CAS No 76-01-7	By way of derogation this provision shall not apply to:
EC No 200-925-1	
38.	(a) medicinal or veterinary products as defined by Directive 2001/82/EC and Directive 2001/83/ EC;
1,1-Dichloroethene	(b) cosmetic products as defined by Directive 76/ 768/EEC.
CAS No 75-35-4	
EC No 200-864-0	

40.	1. Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol dispensers are
Substances classified as flammable gases category 1 or	intended for supply to the general public for entertainment and decorative purposes such as the following:
2, flammable liquids categories 1, 2 or 3, flammable	 metallic glitter intended mainly for decoration,
solids category 1 or 2, substances and mixtures which,	— artificial snow and frost,
in contact with water, emit flammable gases, category	— 'whoopee' cushions,
1, 2 or 3, pyrophoric liquids category 1 or pyrophoric	— silly string aerosols,
solids category 1, regardless of whether they appear in	— imitation excrement,
Part 3 of Annex VI to Regulation (EC) No 1272/2008 or	— horns for parties,
not.	— decorative flakes and foams,
	— artificial cobwebs,
	— stink bombs.
	2. Without prejudice to the application of other Community provisions on the classification, packaging and
	labelling of substances, suppliers shall ensure before the placing on the market that the packaging of aerosol
	dispensers referred to above is marked visibly, legibly and indelibly with:
	'For professional users only'.
	3. By way of derogation, paragraphs 1 and 2 shall not apply to the aerosol dispensers referred to Article 8
	(1a) of Council Directive 75/324/ EEC (***).
	4. The aerosol dispensers referred to in paragraphs 1 and 2 shall not be placed on the market unless they
	conform to the requirements indicated.
41. Hexachloroethane	Shall not be placed on the market, or used, as substance or in mixtures, where the substance or mixture is
CAS No 67-72-1	intended for the manufacturing or processing of non-ferrous metals.
EC No 200-666-4	
42.	
	1

43. Azocolourants and Azodyes	1. Azodyes which, by reductive cleavage of one or more azo groups, may release one or more of the
	aromatic amines listed in Appendix 8, in detectable concentrations, i.e. above 30 mg/kg (0,003 % by weight)
	in the articles or in the dyed parts thereof, according to the testing methods listed in Appendix 10, shall not
	be used, in textile and leather articles which may come into direct and prolonged contact with the human
	skin or oral cavity, such as:
	 — clothing, bedding, towels, hairpieces, wigs, hats, nappies and other sanitary items, sleeping bags,
	 footwear, gloves, wristwatch straps, handbags, purses/wallets, briefcases, chair covers, purses worn
	round the neck,
	 — textile or leather toys and toys which include textile or leather garments,
	 — yarn and fabrics intended for use by the final consumer.
	— yarn and fabrics intended for use by the final consumer.
	2. Furthermore, the textile and leather articles referred to in paragraph 1 shall not be placed on the market
	unless they conform to the requirements set out in that paragraph.
	3. Azodyes, which are contained in Appendix 9, 'List of azodyes' shall not be placed on the market, or used,
	as substances, or in mixtures in concentrations greater than 0,1 % by weight, where the substance or the
	mixture is intended for colouring textile and leather articles.
44.	
45.	1. Shall not be placed on the market, or used:
Diphenylether, octabromo derivative	— as a substance,
C 12 H 2 Br 8 O	— as a constituent of other substances, or in mixtures, in concentrations greater than 0,1 % by weight.
	2. Articles shall not be placed on the market if they, or flame-retardant parts thereof, contain this substance
	in concentrations greater than 0,1 % by weight.
	3. By way of derogation, paragraph 2 shall not apply:
	— to articles that were in use in the Community before 15 August 2004,

	— to electrical and electronic equipment within the scope of Directive 2002/95/EC.
46.	Shall not be placed on the market, or used, as substances or in mixtures in concentrations equal to or
(a) Nonylphenol	greater than 0,1 % by weight for the following purposes:
C 6 H4(OH)C 9 H 19	
CAS 25154-52-3	(1) industrial and institutional cleaning except:
EC 246-672-0	- controlled closed dry cleaning systems where the washing liquid is recycled or incinerated,
(b) Nonylphenol ethoxylates	 cleaning systems with special treatment where the washing liquid is recycled or incinerated.
(C 2 H 4 O) n C 15 H 24 O	(2) domestic cleaning;
	(3) textiles and leather processing except:
	- processing with no release into waste water,
	- systems with special treatment where the process water is pre-treated to remove the organic fraction
	completely prior to biological waste water treatment (degreasing of sheepskin);
	(4) emulsifier in agricultural teat dips;
	(5) metal working except: uses in controlled closed systems where the washing liquid is recycled or
	incinerated;
	(6) manufacturing of pulp and paper;
	(7) cosmetic products;
	(8) other personal care products except: spermicides;
	(9) co-formulants in pesticides and biocides.
	However national authorisations for pesticides or biocidal products containing nonylphenol ethoxylates as
	co-formulant, granted before 17 July 2003, shall not be affected by this restriction until their date of expiry.
46a.	1. Shall not be placed on the market after 3 February 2021 in textile articles which can reasonably be
Nonylphenol ethoxylates (NPE)	expected to be washed in water during their normal lifecycle, in concentrations equal to or greater than
$(C_2H_4O)_nC_{15}H_{24}O$	0,01 % by weight of that textile article or of each part of the textile article.
	2. Paragraph 1 shall not apply to the placing on the market of second-hand textile articles or of new textile
	articles produced, without the use of NPE, exclusively from recycled textiles.

	3. For the purposes of paragraphs 1 and 2, "textile article" means any unfinished, semi-finished or finished product which is composed of at least 80 % textile fibres by weight, or any other product that contains a part which is composed of at least 80 % textile fibres by weight, including products such as clothing, accessories, interior textiles, fibres, yarn, fabrics and knitted panels.
47.Chromium VI compounds	1. Cement and cement-containing mixtures shall not be placed on the market, or used, if they contain, when hydrated, more than 2 mg/kg (0,0002 %) soluble chromium VI of the total dry weight of the cement.
	2. If reducing agents are used, then without prejudice to the application of other Community provisions on the classification, packaging and labelling of substances and mixtures, suppliers shall ensure before the placing on the market that the packaging of cement or cement-containing mixtures is visibly, legibly and indelibly marked with information on the packing date, as well as on the storage conditions and the storage period appropriate to maintaining the activity of the reducing agent and to keeping the content of soluble chromium VI below the limit indicated in paragraph 1.
	3. By way of derogation, paragraphs 1 and 2 shall not apply to the placing on the market for, and use in, controlled closed and totally automated processes in which cement and cement-containing mixtures are handled solely by machines and in which there is no possibility of contact with the skin.
	4. The standard adopted by the European Committee for Standardization (CEN) for testing the water-soluble chromium (VI) content of cement and cement-containing mixtures shall be used as the test method for demonstrating conformity with paragraph 1.
	5. Leather articles coming into contact with the skin shall not be placed on the market where they contain chromium VI in concentrations equal to or greater than 3 mg/kg (0,0003 % by weight) of the total dry weight of the leather.

	6. Articles containing leather parts coming into contact with the skin shall not be placed on the market
	where any of those leather parts contains chromium VI in concentrations equal to or greater than 3 mg/kg
	(0,0003 % by weight) of the total dry weight of that leather part.
	7. Paragraphs 5 and 6 shall not apply to the placing on the market of second-hand articles which were in
	end-use in the Union before 1 May 2015.
48.	Shall not be placed on the market, or used, as a substance or in mixtures in a concentration equal to or
Toluene	greater than 0,1 % by weight where the substance or mixture is used in adhesives or spray paints intended
CAS No 108-88-3	for supply to the general public.
EC No 203-625-9	
49. Trichlorobenzene	Shall not be placed on the market, or used, as a substance or in mixtures in a concentration equal to or
CAS No 120-82-1	greater than 0,1 % by weight for any use except:
EC No 204-428-0	— as an intermediate of synthesis, or,
	— as a process solvent in closed chemical applications for chlorination reactions, or,
	— in the manufacture of 1,3,5-triamino — 2,4,6- trinitrobenzene (TATB).
50. Polycyclic-aromatic hydrocarbons (PAH)	1. From 1 January 2010, extender oils shall not be placed on the market, or used for the production of tyres
(a) Benzo[a]pyrene (BaP) CAS No 50-32-8	or parts of tyres if they contain:
(b) Benzo[e]pyrene (BeP) CAS No 192-97-2	 more than 1 mg/kg (0,0001 % by weight) BaP, or,
(c) Benzo[a]anthracene (BaA) CAS No 56-55-3	 more than 10 mg/kg (0,001 % by weight) of the sum of all listed PAHs.
(d) Chrysen (CHR) CAS No 218-01-9	
(e) Benzo[b]fluoranthene (BbFA) CAS No 205-99-2	These limits shall be regarded as kept, if the polycyclic aromatics (PCA) extract is less than 3 % by weight as-
(f) Benzo[j]fluoranthene (BjFA) CAS No 205-82-3	measured by the Institute of Petroleum standard IP346: 1998 (Determination of PCA in unused lubricating-
(g) Benzo[k]fluoranthene (BkFA) CAS No 207-08-9	base oils and asphaltene free petroleum fractions — Dimethyl sulphoxide extraction refractive index-
(h) Dibenzo[a,h]anthracene (DBAhA) CAS No 53-70-3	method), provided that compliance with the limit values of BaP and of the listed PAHs, as well as the-
	correlation of the measured values with the PCA extract, is controlled by the manufacturer or importer every
	six months or after each major operational change, whichever is earlier.

('The standard EN 16143:2013 (Petroleum products — Determination of content of Benzo (a)pyrene (BaP) and selected polycyclic aromatic hydrocarbons (PAH) in extender oils — Procedure using double LC cleaning and GC/MS analysis) shall be used as the test method for demonstrating conformity with the limits referred to in the first subparagraph. Until 23 September 2016, the limits referred to in the first subparagraph may be regarded as kept, if the polycyclic aromatics (PCA) extract is less than 3 % by weight as measured by the Institute of Petroleum standard IP 346:1998 (Determination of PCA in unused lubricating base oils and asphaltene free petroleum fractions — Dimethyl sulphoxide extraction refractive index method), provided that compliance with the limits of BaP and of the listed PAHs, as well as the correlation of the measured values with the PCA extract, is measured by the manufacturer or importer every six months or after each major operational change, whichever is earlier.' -2015.3.3-eu 2015/236 replace the upon 2. Furthermore, tyres and treads for retreading manufactured after 1 January 2010 shall not be placed on the market if they contain extender oils exceeding the limits indicated in paragraph 1. These limits shall be regarded as kept, if the vulcanised rubber compounds do not exceed the limit of 0,35 % Bay protons as measured and calculated by ISO 21461 (Rubber vulcanised — Determination of aromaticity of oil in vulcanised rubber compounds). 3. By way of derogation, paragraph 2 shall not apply to retreaded tyres if their tread does not contain extender oils exceeding the limits referred to in paragraph 1. For the purpose of this entry 'tyres' shall mean tyres for vehicles covered by: — Directive 2007/46/EC of the European Parliament and of the Council of 5 September 2007 establishing a framework for the approval of motor vehicles and their trailers (****), Directive 2003/37/EC of the European Parliament and of the Council of 26 May 2003 on type-approval of agricultural or forestry tractors, their trailers and interchangeable towed machinery, together with their

systems, components and separate technical units (*****), and
 Directive 2002/24/EC of the European Parliament and of the Council of 18 March 2002 relating to the
type-approval of two or three-wheel motor vehicles and repealing Council Directive 92/61/EEC (******).
5. Articles shall not be placed on the market for supply to the general public, if any of their rubber or plastic
components that come into direct as well as prolonged or short-term repetitive contact with the human skin
or the oral cavity, under normal or reasonably foreseeable conditions of use, contain more than 1 mg/kg
(0,0001 % by weight of this component) of any of the listed PAHs.
Such articles include amongst others:
 — sport equipment such as bicycles, golf clubs, racquets
 household utensils, trolleys, walking frames
- tools for domestic use
 — clothing, footwear, gloves and sportswear
 watch-straps, wrist-bands, masks, head-bands
6. Toys, including activity toys, and childcare articles, shall not be placed on the market, if any of their rubber
or plastic components that come into direct as well as prolonged or short-term repetitive contact with the
human skin or the oral cavity, under normal or reasonably foreseeable conditions of use, contain more than
0,5 mg/kg (0,00005 % by weight of this component) of any of the listed PAHs.
7. By way of derogation from paragraphs 5 and 6, these paragraphs shall not apply to articles placed on the
market for the first time before 27 December 2015.
8. By 27 December 2017, the Commission shall review the limit values in paragraphs 5 and 6 in the light of
new scientific information, including migration of PAHs from the articles referred to therein, and information
on alternative raw materials and, if appropriate, modify these paragraphs accordingly.

51. The following whitheletes (or other CAC and EC	1. Chall not be used as substances on in mintures, in concentrations greater than 0.1.0(but usight of the
51. The following phthalates (or other CAS and EC	1. Shall not be used as substances or in mixtures, in concentrations greater than 0,1 % by weight of the
numbers covering the substance):	plasticised material, in toys and childcare articles.
(a) Bis (2-ethylhexyl) phthalate (DEHP)	
CAS No 117-81-7	2. Toys and childcare articles containing these phthalates in a concentration greater than 0,1 % by weight of
EC No 204-211-0	the plasticised material shall not be placed on the market.
(b) Dibutyl phthalate (DBP)	
CAS No 84-74-2	3. The Commission shall re-evaluate, by 16 January 2010, the measures provided for in relation to this entry-
EC No 201-557-4	in the light of new scientific information on such substances and their substitutes, and if justified, these-
(c) Benzyl butyl phthalate (BBP)	measures shall be modified accordingly 2015.3.3-eu 2015/236 delete
CAS No 85-68-7	
EC No 201-622-7	4. For the purpose of this entry 'childcare article' shall mean any product intended to facilitate sleep,
	relaxation, hygiene, the feeding of children or sucking on the part of children.
	5. Articles shall not be placed on the market for supply to the general public, if any of their rubber or plastic
	components that come into direct as well as prolonged or short-term repetitive contact with the human skin
	or the oral cavity, under normal or reasonably foreseeable conditions of use, contain more than 1 mg/kg
	(0,0001 % by weight of this component) of any of the listed PAHs.
	Such articles include amongst others:
	 — sport equipment such as bicycles, golf clubs, racquets
	 household utensils, trolleys, walking frames
	— tools for domestic use
	 — clothing, footwear, gloves and sportswear
	— watch-straps, wrist-bands, masks, head-bands
	6. Toys, including activity toys, and childcare articles, shall not be placed on the market, if any of their rubber

	or plastic components that come into direct as well as prolonged or short-term repetitive contact with the
	human skin or the oral cavity, under normal or reasonably foreseeable conditions of use, contain more than
	0,5 mg/kg (0,00005 % by weight of this component) of any of the listed PAHs.
	7. By way of derogation from paragraphs 5 and 6, these paragraphs shall not apply to articles placed on the
	market for the first time before 27 December 2015.
	8. By 27 December 2017, the Commission shall review the limit values in paragraphs 5 and 6 in the light of
	new scientific information, including migration of PAHs from the articles referred to therein, and information
	on alternative raw materials and, if appro-priate, modify these paragraphs accordingly.
52. The following phthalates (or other CAS- and EC	1. Shall not be used as substances or in mixtures, in concentrations greater than 0,1 % by weight of the
numbers covering the substance):	plasticised material, in toys and childcare articles which can be placed in the mouth by children.
(a) Di-'isononyl' phthalate (DINP)	2. Such toys and childcare articles containing these phthalates in a concentration greater than 0,1 % by
CAS No 28553-12-0 and 68515-48-0	weight of the plasticised material shall not be placed on the market.
EC No 249-079-5 and 271-090-9	
	3. The Commission shall re-evaluate, by 16 January 2010, the measures provided for in relation to this entry
(b) Di-'isodecyl' phthalate (DIDP)	in the light of new scientific information on such substances and their substitutes, and if justified, these-
CAS No 26761-40-0 and 68515-49-1	measures shall be modified accordingly2015.3.3-eu 2015/236 delete

	4. For the purpose of this entry 'childcare article' shall mean any product intended to facilitate sleep,
(c) Di-n-octyl phthalate (DNOP)	relaxation, hygiene, the feeding of children or sucking on the part of children.
CAS No 117-84-0	
EC No 204-214-7	
53.	

54.	Shall not be placed on the market after 27 June 2010, for supply to the general public, as a constituent of
2-(2-methoxyethoxy)ethanol (DEGME)	paints, paint strippers, cleaning agents, self-shining emulsions or floor sealants in concentrations equal to or
CAS No 111-77-3	greater than 0,1 % by weight.
EC No 203-906-6	
55.	1. Shall not be placed on the market for the first time after 27 June 2010, for supply to the general public, as
2-(2-butoxyethoxy)ethanol (DEGBE)	a constituent of spray paints or spray cleaners in aerosol dispensers in concentrations equal to or greater
CAS No 112-34-5	than 3 % by weight.
EC No 203-961-6	
	2. Spray paints and spray cleaners in aerosol dispensers containing DEGBE and not conforming to paragraph
	1 shall not be placed on the market for supply to the general public after 27 December 2010.
	3. Without prejudice to other Community legislation concerning the classification, packaging and labelling of
	substances and mixtures, suppliers shall ensure before the placing on the market that paints other than
	spray paints containing DEGBE in concentrations equal to or greater than 3 % by weight of that are placed on
	the market for supply to the general public are visibly, legibly and indelibly marked by 27 December 2010 as
	follows:
	'Do not use in paint spraying equipment'.
56.	1. Shall not be placed on the market after 27 December 2010, as a constituent of mixtures in concentrations
Methylenediphenyl diisocyanate (MDI)	equal to or greater than 0,1 % by weight of MDI for supply to the general public, unless suppliers shall
CAS No 26447-40-5	ensure before the placing on the market that the packaging:
EC No 247-714-0	
including the following specific isomers:	(a) contains protective gloves which comply with the requirements of Council Directive 89/686/EEC
(a) 4,4'-Methylenediphenyl diisocyanate:	(******);
CAS No 101-68-8	
EC No 202-966-0;	(b) is marked visibly, legibly and indelibly as follows, and without prejudice to other Community legislation
(b) 2,4'-Methylenediphenyl diisocyanate:	concerning the classification, packaging and labelling of substances and mixtures:

CAC N= 5072 54.4	
CAS No 5873-54-1	'— Persons already sensitised to diisocyanates may develop allergic reactions when using this product.
EC No 227-534-9;	- Persons suffering from asthma, eczema or skin problems should avoid contact, including dermal contact,
(c) 2,2'-Methylenediphenyl diisocyanate:	with this product.
CAS No 2536-05-2	- This product should not be used under conditions of poor ventilation unless a protective mask with an
EC No 219-799-4	appropriate gas filter (i.e. type A1 according to standard EN 14387) is used.'
	2. By way of derogation, paragraph 1(a) shall not apply to hot melt adhesives.
	 (******) OJ L 399, 30.12.1989, p. 18.
57. Cyclohexane	1. Shall not be placed on the market for the first time after 27 June 2010, for supply to the general public, as
CAS No 110-82-7	a constituent of neoprene-based contact adhesives in concentrations equal to or greater than 0,1 % by
EC No 203-806-2	weight in package sizes greater than 350 g.
	2. Neoprene-based contact adhesives containing cyclohexane and not conforming to paragraph 1 shall not
	be placed on the market for supply to the general public after 27 December 2010.
	3. Without prejudice to other Community legislation concerning the classification, packaging and labelling of
	substances and mixtures, suppliers shall ensure before the placing on the market that neoprene-based
	contact adhesives containing cyclohexane in concentrations equal to or greater than 0,1 % by weight that
	are placed on the market for supply to the general public after 27 December 2010 are visibly, legibly and
	indelibly marked as follows:
	'— This product is not to be used under conditions of poor ventilation.
	— This product is not to be used for carpet laying.'.
58. Ammonium nitrate (AN)	1. Shall not be placed on the market for the first time after 27 June 2010 as a substance, or in mixtures that
CAS No 6484-52-2	contain more than 28 % by weight of nitrogen in relation to ammonium nitrate, for use as a solid fertiliser,
EC No 229-347-8	straight or compound, unless the fertiliser complies with the technical provisions for ammonium nitrate
	fertilisers of high nitrogen content set out in Annex III to Regulation (EC) No 2003/2003 of the European
	rechisers of high hierogen content set out in Annex in to Regulation (LC) no 2005/2005 of the European

Parliament and of the Council (*******).
2. Shall not be placed on the market after 27 June 2010 as a substance, or in mixtures that contain 16 % or
more by weight of nitrogen in relation to ammonium nitrate except for supply to:
(a) downstream users and distributors, including natural or legal persons licensed or authorised in
accordance with Council Directive 93/15/EEC (********);
(b) farmers for use in agricultural activities, either full time or part time and not necessarily related to the
size of the land area.
For the purposes of this subparagraph:
(i) 'farmer' shall mean a natural or legal person, or a group of natural or legal persons, whatever legal status
is granted to the group and its members by national law, whose holding is situated within Community
territory, as referred to in Article 299 of the Treaty, and who exercises an agricultural activity;
(ii) 'agricultural activity' shall mean the production, rearing or growing of agricultural products including
harvesting, milking, breeding animals and keeping animals for farming purposes, or maintaining the land in
good agricultural and environmental condition as established under Article 5 of Council Regulation (EC) No
1782/2003 (********);
(c) natural or legal persons engaged in professional activities such as horticulture, plant growing in
greenhouses, maintenance of parks, gardens or sport pitches, forestry or other similar activities.
3. However, for the restrictions in paragraph 2, Member States may until 1 July 2014, for socioeconomic
reasons, apply a limit of up to 20 % by weight of nitrogen in relation to ammonium nitrate for substances
and mixtures placed on the market within their territories. They shall inform the Commission and other
Member States thereof.

	(*******) OJ L 304, 21.11.2003, p. 1.
	(********) OJ L 121, 15.5.1993, p. 20.
	(*********) OJ L 270, 21.10.2003, p. 1
59.	1. Paint strippers containing dichloromethane in a concentration equal to or greater than 0,1 % by weight
Dichloromethane	shall not be:
CAS No 75-09-2	(a) placed on the market for the first time for supply to the general public or to professionals after 6
EC No: 200-838-9	December 2010;
	(b) placed on the market for supply to the general public or to professionals after 6 December 2011;
	(c) used by professionals after 6 June 2012. For the purposes of this entry:
	(i) 'professional' means any natural or legal person, including workers and self-employed workers
	undertaking paint stripping in the course of their professional activity outside an industrial installation;
	(ii) 'industrial installation' means a facility used for paint stripping activities.
	2. By way of derogation from paragraph 1, Member States may allow on their territories and for certain
	activities the use, by specifically trained professionals, of paint strippers containing dichloromethane and
	may allow the placing on the market of such paint strippers for supply to those professionals.
	Member States making use of this derogation shall define appropriate provisions for the protection of the
	health and safety of those professionals using paint strippers containing dichloromethane and shall inform
	the Commission thereof.
	Those provisions shall include a requirement that a professional shall hold a certificate that is accepted by
	the Member State in which that professional operates, or provide other documentary evidence to that
	effect, or be otherwise approved by that Member State, so as to demonstrate proper training and
	competence to safely use paint strippers containing dichloromethane.

The Commission shall prepare a list of the Member States which have made use of the derogation in this
paragraph and make it publicly available over the Internet.
2. A media site of the form the demonstration of media in some much 2 shall an extra sub-in Marshan
3. A professional benefiting from the derogation referred to in paragraph 2 shall operate only in Member
States which have made use of that derogation. The training referred to in paragraph 2 shall cover as a minimum:
awareness, evaluation and management of risks to health, including information on existing substitutes or
processes, which under their conditions of use are less hazardous to the health and safety of workers;
use of adequate ventilation;
use of appropriate personal protective equipment that complies with Directive 89/ 686/EEC.
Employers and self-employed workers shall preferably replace dichloromethane with a chemical agent or
process which, under its conditions of use, presents no risk, or a lower risk, to the health and safety of
workers.
Professional shall apply all relevant safety measures in practice, including the use of personal protective
equipment.
4. Without prejudice to other Community legislation on workers protection, paint strippers containing
dichloromethane in concentrations equal to or greater than 0,1 % by weight may be used in industrial
installations only if the following minimum conditions are met:
(a) effective ventilation in all processing areas, in particular for the wet processing and the drying of stripped
articles: local exhaust ventilation at strip tanks supplemented by forced ventilation in those areas, so as to
minimise exposure and to ensure compliance, where technically feasible, with relevant occupational
exposure limits;

	(b) measures to minimise evaporation from strip tanks comprising: lids for covering strip tanks except during loading and unloading; suitable loading and unloading arrangements for strip tanks; and wash tanks with water or brine to remove excess solvent after unloading;
	(c) measures for the safe handling of dichloromethane in strip tanks comprising: pumps and pipework for transferring paint stripper to and from strip tanks; and suitable arrangements for safe cleaning of tanks and removal of sludge;
	(d) personal protective equipment that complies with Directive 89/686/EEC comprising: suitable protective gloves, safety goggles and protective clothing; and appropriate respiratory protective equipment where compliance with relevant occupational exposure limits cannot be otherwise achieved;
	 (e) adequate information, instruction and training for operators in the use of such equipment. 5. Without prejudice to other Community provisions concerning the classification, labelling and packaging of substances and mixtures, by 6 December 2011 paint strippers containing dichloromethane in a concentration equal to or greater than 0,1 % by weight shall be visibly, legibly and indelibly marked as follows:
	'Restricted to industrial use and to professionals approved in certain EU Member States — verify where use is allowed.'
60.Acrylamide	Shall not be placed on the market or used as a substance or constituent of mixtures in a concentration, equal
CAS No 79-06-1	to or greater than 0,1 % by weight for grouting applications after 5 November 2012.
61. Dimethylfumarate (DMF)	Shall not be used in articles or any parts thereof in concentrations greater than 0,1 mg/kg.
CAS No 624-49-7	Articles or any parts thereof containing DMF in concentrations greater than 0,1 mg/kg shall not be placed on
EC 210-849-0	the market.

62.	1. Shall not be manufactured, placed on the market or used as substances or in mixtures after 10 October
(a) Phenylmercury acetate	2017 if the concentration of mercury in the mixtures is equal to or greater than 0,01 % by weight.
EC No: 200-532-5	
CAS No: 62-38-4	2. Articles or any parts thereof containing one or more of these substances shall not be placed on the market
	after 10 October 2017 if the concentration of mercury in the articles or any part thereof is equal to or
(b) Phenylmercury propionate	greater than 0,01 % by weight.
EC No: 203-094-3	
CAS No: 103-27-5	
(c) Phenylmercury 2-ethylhexanoate	
EC No: 236-326-7	
CAS No: 13302-00-6	
(d) Phenylmercury octanoate	
EC No: -	
CAS No: 13864-38-5	
(e) Phenylmercury neodecanoate	
EC No: 247-783-7	
CAS No: 26545-49-3	
63.Lead	1. Shall not be placed on the market or used in any individual part of jewellery articles if the concentration of
CAS No 7439-92-1	lead (expressed as metal) in such a part is equal to or greater than 0,05 % by weight.
EC No 231-100-4	
and its compounds	2. For the purposes of paragraph 1:
	(i) 'jewellery articles' shall include jewellery and imitation jewellery articles and hair accessories, including:
	(a) bracelets, necklaces and rings;

(b) piercing jewellery;
(c) wrist watches and wrist-wear;
(d) brooches and cufflinks;
(ii) 'any individual part' shall include the materials from which the jewellery is made, as well as the individual
components of the jewellery articles.
3. Paragraph 1 shall also apply to individual parts when placed on the market or used for jewellery-making.
4. By way of derogation, paragraph 1 shall not apply to:
(a) crystal glass as defined in Annex I (categories 1, 2, 3 and 4) to Council Directive 69/493/EEC
(******);
(b) internal components of watch timepieces inaccessible to consumers;
(c) non-synthetic or reconstructed precious and semiprecious stones (CN code 7103, as established by
Regulation (EEC) No 2658/87), unless they have been treated with lead or its compounds or mixtures
containing these substances;
(d) enamels, defined as vitrifiable mixtures resulting from the fusion, vitrification or sintering of minerals
melted at a temperature of at least 500 °C.
5. By way of derogation, paragraph 1 shall not apply to jewellery articles placed on the market for the first
time before 9 October 2013 and jewellery articles produced before 10 December 1961.
6.By 9 October 2017, the Commission shall re-evaluate paragraphs 1 to 5 of this entry in the light of new
scientific information, including the availability of alternatives and the migration of lead from the articles
referred to in paragraph 1 and, if appropriate, modify this entry accordingly
7.Shall not be placed on the market or used in articles supplied to the general public, if the concentration of
lead (expressed as metal) in those articles or accessible parts thereof is equal to or greater than 0,05 % by
weight, and those articles or accessible parts thereof may, during normal or reasonably foreseeable
conditions of use, be placed in the mouth by children. That limit shall not apply where it can be
demonstrated that the rate of lead release from such an article or any such accessible part of an article,
whether coated or uncoated, does not exceed 0,05 μg/cm2 per hour (equivalent to 0,05 μg/g/h), and, for

coated articles, that the coating is sufficient to ensure that this release rate is not exceeded for a period of at least two years of normal or reasonably foreseeable conditions of use of the article. For the purposes of this paragraph, it is considered that an article or accessible part of an article may be placed in the mouth by children if it is smaller than 5 cm in one dimension or has a detachable or protruding part of that size. 8.By way of derogation, paragraph 7 shall not apply to: (a) jewellery articles covered by paragraph 1; (b) crystal glass as defined in Annex I (categories 1, 2, 3 and 4) to Directive 69/493/EEC; (c) non-synthetic or reconstructed precious and semi-precious stones (CN code 7103 as established by Regulation (EEC) No 2658/87) unless they have been treated with lead or its compounds or mixtures containing these substances; (d) enamels, defined as vitrifiable mixtures resulting from the fusion, vitrification or sintering of mineral melted at a temperature of at least 500 °C; (e) keys and locks, including padlocks; (f) musical instruments; (g) articles and parts of articles comprising brass alloys, if the concentration of lead (expressed as metal) in the brass alloy does not exceed 0,5 % by weight; (h) the tips of writing instruments; (i) religious articles; (j) portable zinc-carbon batteries and button cell batteries; (k) articles within the scope of: (i) Directive 94/62/EC; (ii) Regulation (EC) No 1935/2004; (iii) Directive 2009/48/EC of the European Parliament and of the Council(*); (iv) Directive 2011/65/EU of the European Parliament and of the Council(**) 9.By 1 July 2019, the Commission shall re-evaluate paragraphs 7 and 8(e), (f), (i) and (j) of this entry in the light of new scientific information, including the availability of alternatives and the migration of lead from the articles referred to in paragraph 7, including the requirement on coating integrity, and, if appropriate, modify this entry accordingly.

10.By way of derogation paragraph 7 shall not apply to articles placed on the market for the first time before 1 June 2016.
